30 September 2005*

**NSA/CSS EVALUATED PRODUCTS LIST
for
OPTICAL MEDIA DESTRUCTION DEVICES**

This Evaluated Products List (EPL) contains a listing of destruction devices that have been evaluated by the National Security Agency (NSA) or its designee and meet the performance requirements of NSA/CSS Specification 04-02, Optical Media Destruction Devices. Inclusion of a product in the EPL is not an endorsement by NSA or the U.S. Government.

The EPL provides the device name, manufacturer, distributor, and sales/marketing contacts for each destruction device evaluated. Models listed have successfully passed evaluation for the security and performance requirements of devices designed for the destruction of optical media (CDs and DVDs). The EPL is organized alphabetically by distributor name.

The Destruction Evaluations and Guidance Branch of the NSA has determined that disintegrators currently listed on the NSA/CSS 02-02 Evaluated Products List (EPL) also provide adequate security for the destruction of optical media (CDs and DVDs) in accordance with NSA/CSS 04-02, Optical Media Destruction Devices. It is recommended that paper be mixed with the optical media during destruction. Please contact the manufacturer to determine if a specific product is mechanically suited for optical media destruction.

The EPL shall be updated on a quarterly basis, or as new models are successfully evaluated. Users are encouraged to contact the device manufacturers /distributors for assistance in selecting unit(s) best suited to their requirements and to determine if additional devices have been added to the EPL in the interim.

The procedures for administration and distribution of the EPL are subject to change without notice. Inquiries from U.S. Government users should be forwarded through designated support channels to the NSA Information Assurance Directorate. All other inquiries should be directed to the NSA Public Affairs Office.

SEM CD Declassifier 1200	Proton Engineering Inc.	Security Engineered Machinery	CDs	180	See Note 1
Datastroyer 101	Applied Magnetics Laboratory, Inc.	Whitaker Brothers, Inc.	CDs	300	See Note 1
Whitaker Brothers 100	Whitaker Brothers, Inc.	Whitaker Brothers, Inc.	CDs	60	See Note 1

* CD includes CD_{ROM}, CD_R & CD_{RW} media. DVD includes DVD_{ROM}, DVD_R & DVD_{RW} media.

Notes:

1. Device was evaluated prior to the release of NSA/CSS Specification 04-02. Device was not evaluated for durability. Adhesive labels may prevent destruction of the data and may significantly reduce device functionality and/or durability.
2. Remove or obliterate all classified markings prior to destruction.
